SAFETY DATA SHEET

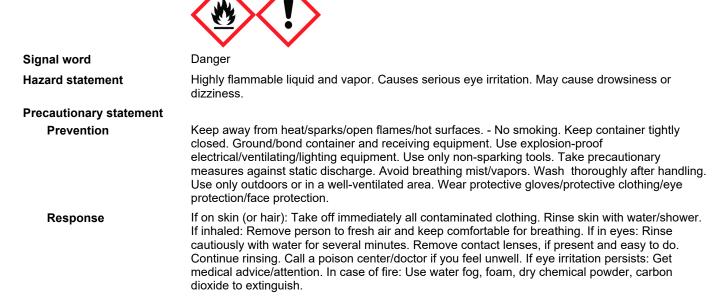

1. Identification

Product identifier	Hylomar M/Aerograde Ultra PL32A- Light,	Medium and Heavy Grades
Other means of identification SDS number	4	
Recommended use	Non-Setting and Non-Hardening Gasketing C	ompound.
Recommended restrictions	None known.	
Manufacturer/Importer/Supplier	/Distributor information	
Manufacturer:	Hylomar Ltd.	
Address:	Hylo House, Cale Lane, New Springs,	
	Wigan, Greater Manchester,	
	UK, WN2 1JT	
Telephone Number:	+44(0)1942 617000	
E-mail address:	info@hylomar.co.uk	
Contact person:	Technical Department	
Supplier:	Hylomar LLC	
Address:	158 JJ Lane, Center Point	
	Texas, 78010	
Office number:	+1.830.634.2603	
Cell number:	+1.830.377.0525	
Emergency telephone:	1.866.519.4752 (USA, Canada, Mexico)	
	1-760-476-3962	
	Access code: 333544	
2. Hazard(s) identification		
Physical hazards	Flammable liquids	Category 2
Health hazards	Serious eye damage/eye irritation	Category 2A

OSHA defined hazards

Label elements

Specific target organ toxicity, single exposure Category 3 narcotic effects

Not classified.

Storage	Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	C.	AS number	%
Acetone		67-64-1	40 - 50
Composition comments	All concentrations are in percent by weight unless ingre- percent by volume. Components not listed are either no		
4. First-aid measures			
Inhalation	Remove victim to fresh air and keep at rest in a position center or doctor/physician if you feel unwell.	comfortable for bre	athing. Call a poison
Skin contact	Take off immediately all contaminated clothing. Rinse slattention if irritation develops and persists.	kin with water/show	er. Get medical
Eye contact	Immediately flush eyes with plenty of water for at least 1 present and easy to do. Continue rinsing. Get medical a		
Ingestion	Rinse mouth. Get medical attention if symptoms occur.		
Most important symptoms/effects, acute and delayed	Aspiration may cause pulmonary edema and pneumonit of eyes and mucous membranes. Vapors may cause dru- include stinging, tearing, redness, swelling, and blurred may cause drying, cracking, or irritation.	owsiness and dizzir	less. Symptoms may
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptor immediately. While flushing, remove clothes which do nambulance. Continue flushing during transport to hospit. Symptoms may be delayed.	ot adhere to affecte	d area. Call an
General information	Take off all contaminated clothing immediately. Ensure material(s) involved, and take precautions to protect the before reuse.		
5. Fire-fighting measures			
Suitable extinguishing media	Water spray, foam, dry powder or carbon dioxide.		
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spre	ad the fire.	
Specific hazards arising from the chemical	By heating and fire, harmful vapors/gases may be forme	ed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective cl	lothing must be wor	n in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. M so without risk. Use standard firefighting procedures and materials.		
General fire hazards	The product is highly flammable, and explosive vapor/ai room temperatures. Vapors are heavier than air and ma source of ignition and flash back.		

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools.
	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.
	Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material. Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. When using do not smoke. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Avoid breathing mist/vapors. Avoid contact with eyes. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Follow rules for flammable liquids. Keep container tightly closed in a cool, well-ventilated place. Keep away from heat, sparks and open flame. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in tightly closed container. Store in a well-ventilated place. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS)
	materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

US. OSHA Table Z-1 Permis	sible Exposure Limits (PEL) for Ai	r Contaminants (29 CFR 1910.1000)

Good general ventilation should be used f applicable, use process enclosures, local maintain airborne levels below recommend tablished, maintain airborne levels to an

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection	
Hand protection	Full contact: Glove material: Butyl rubber. Use gloves with breakthrough time of 480 minutes. Minimum glove thickness 0.7 mm. Incidental contact: Glove material: Latex gloves. Use gloves with breakthrough time of 0.6 minutes. Minimum glove thickness 10 mm.
	Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Other suitable gloves can be recommended by the glove supplier.
Other	Wear suitable protective clothing.
Respiratory protection	In case of inadequate ventilation or risk of inhalation of vapors, use suitable respiratory equipment with combination filter. Appropriate respirator selection should be made by a qualified professional.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Thixotropic gel.
Color	Blue.
Odor	Sweet.
Odor threshold	Property has not been measured.
рН	6
Melting point/freezing point	-138.46 °F (-94.7 °C)
Initial boiling point and boiling range	133.7 °F (56.5 °C)
Flash point	1.4 °F (-17 °C) Closed Cup
Evaporation rate	Property has not been measured.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Explosive limit - lower (%)	2.6
Explosive limit - upper (%)	13
Vapor pressure	240 hPa
Vapor density	2 (Air = 1) (68 °F (20 °C))
Relative density	1.034 (Water=1)
Solubility(ies)	
Solubility (water)	Completely soluble in water.
Solubility (other)	Miscible in acetone.
Partition coefficient (n-octanol/water)	Not applicable, product is a mixture.
Auto-ignition temperature	869 °F (465 °C)
Decomposition temperature	Property has not been measured.
Viscosity	Property has not been measured.
Other information	
Density	Property has not been measured.
Explosive properties	Not explosive.
Kinematic viscosity	Property has not been measured.
Molecular weight	Not applicable, product is a mixture.
Oxidizing properties	Not oxidizing.
VOC	> 25 - < 50 (Hylomar Test Method 1.1A Determination of Volatile Matter)
10. Stability and reactivity	,

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and tr	ansport.
Chemical stability	Risk of ignition. Material is stable under normal conditions.	

Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Vapors may cause drowsiness and dizziness. In high concentrations, vapors may be irritating to the respiratory system.
Skin contact	Repeated exposure may cause skin dryness or cracking.
Eye contact	Causes serious eye irritation.
Ingestion	Not likely, due to the form of the product. However: Ingestion may cause irritation and malaise.
Symptoms related to the physical, chemical and toxicological characteristics	May cause drowsiness or dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Vapors may cause drowsiness and dizziness. Prolonged or repeated skin contact may cause drying, cracking, or irritation.

Information on toxicological effects

Acute toxicity	Not expected to be acutely toxic.		
Components	Species	Test Results	
Acetone (CAS 67-64-1)			
<u>Acute</u>			
Dermal			
LD50	Rabbit	> 7400 mg/kg	
Inhalation			
LC50	Rat	76 mg/l, 4 Hours	
Oral			
LD50	Rat	5800 mg/kg	
Skin corrosion/irritation	Repeated exposure may cause sk	n dryness or cracking.	
Serious eye damage/eye irritation	Causes serious eye irritation.		
Respiratory or skin sensitization	1		
Respiratory sensitization	Not a respiratory sensitizer.		
Skin sensitization	This product is not expected to cause skin sensitization.		
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity	Not classifiable as to carcinogenicity to humans.		
IARC Monographs. Overall I Not listed. NTP Report on Carcinogens Not listed.	Evaluation of Carcinogenicity		
OSHA Specifically Regulate	d Substances (29 CFR 1910.1001-	1053)	
Not listed.			
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.		
Specific target organ toxicity - single exposure	May cause drowsiness or dizziness.		
Specific target organ toxicity - repeated exposure	Not classified.		
Aspiration hazard	Not an aspiration hazard.		
Chronic effects	Prolonged inhalation may be harm	ful.	
Further information	No other specific acute or chronic	health impact noted.	

12. Ecological information

Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude th possibility that large or frequent spills can have a harmful or damaging effect on the environment			
Components		Species	Test Results	
Acetone (CAS 67-64-1)				
Aquatic				
Algae	NOEC	Algae	430 mg/l, 96 hours	
Crustacea	NOEC	Water flea (Daphnia magna)	2212 mg/l, 28 days (Reproduction)

Mobility in soil	The produ	The product is water soluble and may spread in water systems.		
Other adverse effects	The produ potential.	The product contains volatile organic compounds which have a photochemical ozone creation potential.		
13. Disposal consideration	ons			
Disposal instructions		Dispose of this material and its container to hazardous or special waste collection point. Dispose of contents/container in accordance with local/regional/national/international regulations.		
Local disposal regulations	Dispose ir	Dispose in accordance with all applicable regulations.		
Hazardous waste code		The waste code should be assigned in discussion between the user, the producer and the waste disposal company.		
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).			
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
