

ENVIRONMENTAL POLICY STATEMENT

Hylomar Ltd recognises its responsibility to conduct operations, provide services and manufacture products in a manner that is responsible to the Earth's environment and protective of its natural resources and to this end has established the following Environmental Policy:

It is the Company's policy to:-

- ❖ Comply with current and any future environmental legislation.
- ❖ Be committed to continual improvement of our environmental impacts and prevention of pollution.
- ❖ Achieve and maintain certification to ISO 14001.
- ❖ Periodically review the environmental performance of the Company with the aim of improvement.
 - Maintain compliance to environmental legislation, by ensuring there are no breaches.
 - Achieve ISO14001 certification.
 - Maintain good relations with interested parties to ensure there are no environmental complaints.
 - Conserve energy by achieving annual energy consumption targets.
 - Prevention of pollution by keeping spillages and environmental incidents at 0.
- ❖ Make relevant parties aware of this policy and their obligations.

Any suggestions that may assist us in improving our environmental impacts are welcomed.
